Louis A. Roser Company would like to officially invite you to the 9th Annual Ammonia Safety Training Seminar! This seminar is such a valuable tool in keeping our customers and community informed and safe. We feel quite fortunate that we are able to provide this opportunity again this year. Last year we had a huge turn out and space is limited, so please make sure you register as soon as possible.

This year we'd like to welcome back our keynote speaker David Binder, currently employed with Tanner Industries, Inc. in Southampton, PA. Mr. Binder facilitates ammonia safety and emergency response training programs throughout the world for industry, fire department, emergency response and emergency management personnel, and we're very pleased to have him back this year as a part of our team. The Unified Fire Department's Hazmat Team will also be there to participate in the training and to answer any specific hazard or emergency plan procedure questions you may have.

We will be having our annual tradeshow as well which will include ammonia detection and safety equipment suppliers, equipment manufacturers for compressors, condensers, evaporators, vessels and controls, valve suppliers and PSM/RMP consultants. The Tradeshow will *ONLY* be open during breaks, and immediately following the end of the Class.

AND we are bringing back the raffle!!! Your attendance and participation will give you multiple chances to win 1 of 4 iPad Mini!!!

We are so excited to be able to host this event for another year and we hope that you are able to attend!!!

TOPICS BEING COVERED:

- ◆ Effects of Ammonia & First Response
- ◆ Shelter/Evacuation Plans
- ◆ Assist in Decon & Medical Zones
- ◆ Connecting PSM to ERP Downwind & Downstream Effects
- ◆ Fire & EMS Support
- ◆ ERP Reporting Requirements

REGISTRATION IS FIRST COME FIRST SERVE

Please call in or email the names of the individuals you would like to attend this event *no later than January 3rd!*
